

FOR IMMEDIATE RELEASE:

Chiropractor opens office in Munising

Munising, Michigan - January 9, 2008 - Fourth generation Munising native Dr. Derek Kolbus recently opened Munising Family Chiropractic (MFC). Along with his wife Steffanie Kolbus, who is the office manager, Dr. Kolbus offers chiropractic services for the entire family, from pregnant women and infants to adults and seniors.

MFC seeks to provide total body wellness through chiropractic care.

“Chiropractic isn’t just about having people come in and making a few adjustments. We do a full consultation and exam to determine the best treatment for each patient,” Dr. Kolbus said.

Oftentimes, chiropractic can correct a problem that a patient wouldn’t normally associate with their spine. “If someone complains of something like chronic headaches, a lot of the time the problem isn’t caused by something wrong in that area. A problem with the neck or spine could be causing those headaches, and chiropractic may fix that,” said Dr. Kolbus. “Treating the symptoms with pain killers just covers up the problem and doesn’t correct it.”

There are numerous reasons why someone would seek out chiropractic care:

- Adults suffer spinal stress and trauma over their lifetime, including those who have fallen or have been in an auto or other accident, have played contact sports or have been under long-term stress at any point.

Munising Family Chiropractic Opens, cont.

- Women's bodies undergo rapid changes during pregnancy, which can lead to pain and discomfort that can be relieved by chiropractic care.
- Athletes can improve flexibility and help to prevent injury.
- Seniors can find a reduction in the symptoms of arthritis and improved mobility.
- Children can also benefit from chiropractic. The typical spills and bumps of childhood can cause problems that may not be readily apparent.

MFC will be hosting its grand opening January 17 from 4:00 to 7:00 p.m. The public is invited to stop by to tour the new facility and meet Dr. and Ms. Kolbus while enjoying snacks and drinks.

Dr. Kolbus is a 2007 graduate of Palmer College of Chiropractic, the first school of chiropractic in the world, where he earned his Doctorate of Chiropractic. He is U.S. National Board Certified in Chiropractic Medicine and is a member of many chiropractic associations, including the Michigan Association of Chiropractic, the International Chiropractic Pediatrics Association, the International Chiropractic Association and the World Chiropractic Alliance.

Dr. Kolbus also served as an intelligence analyst in the Bosnia/Kosovo conflict as a member of the U.S. Marine Corps. He and his wife live in Munising with their two children.
